CAREER PROFILE

I am a full-stack developer with two years of experience in software development. I have successfully worked with diverse teams to build and deploy a mobile application and develop a freelance application tailored for restaurant management. Recently, I completed a DevOps bootcamp, enhancing my skills in automation, continuous integration, and cloud infrastructure management. I am eager to leverage my full-stack and DevOps expertise in dynamic and innovative environments.

EDUCATION

Licence Technique (L.T.), Programming 2020 - 2021
Al-Amal Institution of Technology | Lebanon

Diplôme de Technicien Supérieur (T.S.), Systems and Networks 2018 – 2020
Al-Amal Institution of Technology | Lebanon

PROFESSIONAL CERTIFICATIONS

ESA Business School: Full-Stack Developers (HTML5, CSS3, JS, PHP, MySQL, MERN STACK), 2022-2023, (Lebanon).

ESIEE-IT France: Full-Stack Developers (HTML5, CSS3, JS, PHP, MySQL, MERN STACK), 2022-2023, (Lebanon).

Global Mentorship Initiative (GMI) Program, 2023 (Lebanon)

Foundation of Computer Science Course, 2021-2022, SE Factory, (Lebanon).

CCNA Routing and Switching: Introduction to Networks, 2018-2019, Cisco, (Lebanon).

PROJECTS

Constantly improving my programming skills by self-developing various clones of well-known applications (2021 – 2022):

- Developed a Tesla Clone Home Page by using ReactJS as the framework.
- Developed an iMessage Clone app by using ReactJS as the front-end and PHP as the back-end while using MySQL as the database.
- Developed an Amazon Clone website by using React and Redux as the front-end and NodeJS as the back-end, while using MongoDB as the database with a lot of technologies like Express and Mongoose.

SKILLS

- **Programming Languages:** HTML5, CSS3, JavaScript, Python, and PHP.
- **Frameworks and Libraries:** React.js, Node.js, Express.js, Next.js and React Native.
- **Database Management:** MySQL, MongoDB and PostgreSQL.
- **Version Control:** Git, GitHub.
- **Design Tools:** Figma.
- **Methodologies:** Agile, Jira, ClickUp.

EXPERIENCE

1. **Remote Full-Stack Developer – ESA BUSINESS SCHOOL (NOVEMBER 2023 – Present)**
 - Specialize in utilizing Next.js, PostgreSQL, and MySQL to build robust and dynamic web applications.
 - Actively contributed to the development of the EXED app, which assists program managers in accessing students' information, including certificates and educational backgrounds, and managing the educational progress of students in the university.
 - Design and implement databases.
 - Collaborate with cross-functional teams.
 - Ensure the seamless integration of multiple applications through APIs.
2. **SIS Application Developer Intern ESA BUSINESS SCHOOL, Duration: March 2023 – August 2023**
 - Built a Student Information System (SIS) application using Next.js and PostgreSQL, which connected and interacted with four other applications via APIs.
 - Designed and implemented a database for teachers, students, courses, schedules, program managers, admins, majors, and other university-related information.
 - Collaborated with a team of developers, designers, and project managers to ensure timely and efficient delivery of project milestones.
 - Demonstrated strong problem-solving skills and attention to detail, resolving technical issues and debugging code as needed.
 - Contributed to the development of project documentation, including technical specifications, user manuals, and test plans.

LANGUAGE SKILLS

- Native Arabic Speaker.
- Proficiency in English.
- Basic French.
- German(A2).
